## AI Governance Gap-Analysis Sprint

Know Your AI Risks in 10 Days—Board-Ready Compliance Report  
Guaranteed

For companies scaling AI products or pursuing [ISO 42001](#)/[NIST RMF](#) alignment who need fast, independent assessment.

---

### The Urgent Problem

You're ready to scale your AI capabilities, but compliance uncertainty is freezing momentum when you can least afford delays:

- **Unknown compliance gaps** are stalling procurement decisions and delaying critical sales
- **Hidden model risks** around bias, IP leakage, and data protection could derail your business overnight
- **Regulatory uncertainty** is stalling momentum precisely when velocity matters most

Every day of inaction compounds the risk—and your competitors aren't waiting.

### The 10-Day Solution

**“In 10 business days, you'll receive a board-ready AI Risk & Compliance Report highlighting critical gaps, remediation roadmap, and quantified business impact.”**

Expect clear communication, no jargon, and a bias toward practical recommendations you can act on immediately.

### What You'll Receive

#### Comprehensive Risk Assessment

- Current-state maturity scan across 40 critical criteria (policy, data, model, organizational culture)
- Visual heat-map dashboard showing probability-versus-impact ratings for each risk area
- Prioritized remediation backlog with quick wins (≤90 days) vs. strategic initiatives

#### Executive Delivery

- 90-minute executive readout with Q&A session
- Clear next-step options including potential retainer pathway

### Proven 10-Day Process

Day	Activity	Deliverable
1	Kick-off & material request	Information checklist
2-6	Stakeholder interviews, document review, rubric scoring	Evidence log
7-8	Draft report creation & findings validation	Draft PDF
9	Final report & heat-map delivery	Final PDF + Excel backlog
10	Executive readout & handover	Presentation deck

### Investment & Risk-Free Transition
